

Portraits of the Savior - Week 3 - The Healer

Remember:

1. What did Pastor Travis make clear about his message on healing? How did that clarity impact you?
2. What three attributes does the Healer possess?

Read Aloud:

Matthew 14:14 and Isaiah 35:5-6

Discuss:

1. How does Jesus respond to hurting people?
2. All healings are signs that the kingdom of God is coming. How does this alter your view of healing?
3. Pastor Travis said, "The greatest healing is not temporary relief from disease...it is eternal reconciliation with our Creator". How does this truth impact your need for healing?

Apply:

1. In what area do you need Jesus to heal you?
2. In Matthew, we see Jesus move toward pain and need. What would it take for you to move toward people in pain or in need?
3. How will you seek eternal restoration for your soul while you pray and hope for healing in your body, emotions and relationships?

Pray:

Invite one person to pray for God to show us that He sees our pain.

Invite another to pray for God to reveal His compassion for us in our places of need.

Invite two more people to split up the list and pray specifically over the healing people shared that they need.

Invite a fifth person to close the prayer in gratitude and worship of God for His promise of full restoration.
